

## **CORA COVID-19 Updates**

The Board has been tracking COVID-19 information as it becomes available. Our primary concern is keeping our employees and owners safe. There have been many discussions on how to best do this!

'To flatten the curve' does not mean the virus is eliminated. They are trying to reduce the number of people who have it at the same time.

As of April 27, 2020 Colorado, has entered the Safer at Home stage of the Governor's reopening plan. Links for more detailed information are provided below and will be posted on the website for the latest information.

CORA is open with several precautions taking place.

- The Clubhouse, kitchen, and pool are closed to gatherings.
- The Office is too small for safe distancing, so we ask you to knock and remain at the door to allow for social distancing unless offered to come in.
- All restroom and laundry facilities are open and being cleaned daily but we encourage you to wipe down surfaces before and after you use them.
- When using the facilities or around neighbors please practice social distancing and wear a mask when appropriate.

If you decide to travel to CORA you do so at your own risk. Please take precautions to protect yourself and others during your visit.
